

Licensed & Insured Contractor Opportunity

Our full-service, locally owned real estate firm located in St. Louis is currently seeking a contractor with experience in electrical, plumbing, dry-wall, and other general repairs. We have a steady flow of projects at any given time which range from changing a light fixture to gut-rehabbing an entire house. This contractor is required to have General Liability Insurance and Worker's Compensation. This is a "bid by the project" position and we cannot guarantee a steady flow of work at all times.

Our program to assist and train our contractors has three general stages:

Stage 1 – Make any necessary repairs to an apartment unit once the existing tenant moves out. A list of all necessary repairs will be provided for you prior to beginning work. You will have an opportunity to quote the price of the repairs before starting. Once the contractor has been able to prove him/herself with the apartments, then they can proceed to Stage 2.

Stage 2 – Manor is constantly purchasing and renovating single-family homes throughout the St. Louis Metropolitan area. We renovate our homes with high end finishes, modern features, and look at every square inch of the property. These projects demand experience contractors willing to get all the necessary permits and is familiar/experienced with all stages of this construction process.

Stage 3 – Manor is also involved in Commercial Projects which will from time-to-time need assistance in general repairs, renovations, etc. to these properties. All contractors will have an opportunity to bid on our projects as they become available.

Please submit your resume along with any pictures of completed projects and we will respond to you promptly to setup an interview. In the meantime, if you have any questions and/or would like additional information about the opportunities, please do not hesitate to email: information@manorrealestate.com.
